

**Chair No. One**

Designed by Studio Oberhauser

An iconic piece like none other, the Oberhauser Chair No. One draws its inspiration from forms found in nature, while embracing the capabilities of the groundbreaking technology which gives it form.

Intricate biomorphic structures echo patterns present in plants and other living organisms. The production method reveals subtle, tree ring-like markings formed during manufacturing, giving each piece its own distinct signature.

**Overall Dimensions**

42" x 40" x 24"
